

K-LOVE is a very important to my community. It provides quality and clean broadcasting every day. I know that I do not have to worry about what will be said or what songs will be sung on K-LOVE because they are clean and up lifting. They do not talk about sex, drugs, violence, or about self. They do not cuss or use derogatory language or put people down. I know that when I get into any of my friends cars I am not going to be insulted or made to feel degraded by anything that is coming from the radio, because we all listen to K-LOVE. Another part of K-LOVE that is so vital and important is that fact that it is listener supported. We help keep this station on the air so that others may be blessed just as we are. I am blessed every morning and every afternoon. I have to drive forty minutes to work and then forty minutes home again. K-Love helps me to prepare myself for my day. It also helps me keep my focus on what is most important in life, Jesus. I am a teacher and without K-LOVE I can't imagine how I would make it through the day.

K-LOVE is a very vital part of my life and my friends life. If it was no longer on the air, I would not be listening to the radio any longer. I would be listening to CD's because there is nothing else on the air that is worth listening to.

K-LOVE is very important service to not just my city and state but to the country. So many people have been blessed by K-LOVE in so many ways. It could be by a song or talking with a pastor that is on staff. So many people have had life changing experiences due to K-LOVE being on the air. If you take it off the air, all the good that is being accomplished in our country today will cease to exist and Satan will have won.

Please do not take K-LOVE off the air. I can't imagine life without my daily dose of praise and worship. It is my time with the Lord and it helps keep me focused on Him. Nothing else on the radio does God's work. I don't want to listen to songs that are about big bottoms or how sexy my tractor is. I find those songs offensive and degrading. If you take K-LOVE off the air, then that will be the kind of songs you will be promoting for the children of this world to listen and learn from. Please think before you do anything. This station does so much good and so many people are blessed by it. Don't let Satan win.

Thank you for your time.
